

Shower Facilities

Code: ANCMF-AU-GB-SF-01 • Facility: Government Building • Frequency: daily

Scope of Work

- Thorough cleaning and sanitising of all shower surfaces, including walls, floors, and fixtures.
- Removal of soap scum, mould, and mildew from tiles and grout.
- Cleaning and polishing of taps and showerheads.
- Emptying and sanitising rubbish bins.
- Refilling of soap dispensers and other consumables.
- Inspection and cleaning of drains to prevent blockages.
- Dusting and wiping of all surfaces, including benches and shelves.
- Ensuring all mirrors and glass surfaces are streak-free.
- Checking and maintaining the cleanliness of ventilation grilles.

Method

1. Prepare the cleaning trolley with all necessary equipment and supplies, ensuring colour-coded cloths and mops are used to prevent cross-contamination.
2. Begin by removing any rubbish and emptying bins, replacing liners as needed.
3. Apply a suitable cleaning solution to all shower surfaces, allowing time for it to act on soap scum and grime.
4. Scrub tiles and grout with a brush, focusing on areas with visible mould or mildew.
5. Rinse surfaces thoroughly with clean water, ensuring no residue is left behind.
6. Clean and polish taps and showerheads using a non-abrasive cleaner.
7. Refill soap dispensers and check other consumables, replacing as necessary.
8. Dust and wipe all surfaces, ensuring no dust or debris remains.
9. Clean mirrors and glass surfaces with a glass cleaner, ensuring they are streak-free.
10. Inspect and clean drains, removing any debris to prevent blockages.
11. Check ventilation grilles and clean as necessary to ensure proper airflow.

Equipment

- Cleaning trolley with colour-coded cleaning cloths and mops
- Non-abrasive cleaning solutions and disinfectants
- Brushes for scrubbing tiles and grout
- Glass cleaner
- Rubbish bin liners
- Personal protective equipment (PPE) including gloves and masks
- Drain cleaning tools

Quality Criteria

Performance Level	Criteria
Excellent	All surfaces are spotless with no visible dirt, grime, or soap scum. Taps and fixtures are polished and free of water spots. No odours present. Consumables fully stocked. Drains are clear and functioning properly.
Good	Minor water spots or soap scum may be present but are not immediately noticeable. Taps and fixtures are generally clean. No strong odours. Consumables mostly stocked. Drains are clear.
Pass	Visible dirt or soap scum in some areas. Taps and fixtures may have water spots. Mild odours present. Consumables may be low. Drains are functioning but may have minor debris.
Fail	Significant dirt, grime, or soap scum present. Taps and fixtures are dirty. Strong odours present. Consumables are depleted. Drains are blocked or not functioning properly.
