

Hazardous Waste Store

Code: ANCMF-AU-HF-HWS-01 • Facility: Healthcare Facility • Frequency: daily

Scope of Work

- Remove all visible waste and debris from the floor and surfaces.
- Sanitise all surfaces, including walls, floors, and storage containers.
- Ensure all waste containers are emptied and cleaned.
- Utilise colour-coded cleaning systems to prevent cross-contamination.
- Ensure all cleaning equipment is cleaned and stored correctly after use.

Method

1. Don appropriate personal protective equipment (PPE) before entering the hazardous waste store.
2. Use a trolley to transport cleaning supplies and equipment to the site.
3. Remove all visible waste and debris using appropriate tools and dispose of it in designated rubbish bins.
4. Sanitise all surfaces with approved disinfectants, focusing on high-touch areas.
5. Clean and sanitise waste containers inside and out.
6. Ensure all cleaning equipment is cleaned, sanitised, and stored correctly after use.

Equipment

- Personal Protective Equipment (PPE)
- Approved disinfectants and sanitisers
- Cleaning trolley
- Colour-coded cleaning cloths and mops
- Rubbish bins and liners

Quality Criteria

Performance Level	Criteria
Excellent	All surfaces are visibly clean and sanitised, with no debris or stains. No odours present. Waste containers are spotless and sanitised. Compliance with infection control guidelines is evident.
Good	Surfaces are generally clean with minor spots. No strong odours. Waste containers are clean with minor residues. Infection control guidelines are mostly followed.
Pass	Surfaces have some visible dirt or stains. Mild odours present. Waste containers have visible residues. Basic infection control measures are in place.
Fail	Surfaces are visibly dirty or stained. Strong odours present. Waste containers are dirty with significant residues. Infection control guidelines are not followed.
