

Nuclear Medicine

Code: ANCMF-AU-HF-NM-01 • Facility: Healthcare Facility • Frequency: daily

Scope of Work

- Sanitising all surfaces including benches, equipment, and high-touch areas.
- Dusting and wiping all horizontal and vertical surfaces.
- Vacuuming and mopping floors with appropriate disinfectants.
- Emptying and sanitising rubbish bins.
- Cleaning and sanitising sinks and taps.
- Ensuring all cleaning activities comply with infection control protocols.

Method

1. Prepare the cleaning trolley with colour-coded cleaning cloths and appropriate disinfectants.
2. Dust all surfaces using a damp microfibre cloth to minimise airborne particles.
3. Sanitise all high-touch areas including door handles, light switches, and equipment controls.
4. Vacuum floors using a HEPA-filter vacuum cleaner to capture fine particles.
5. Mop floors with a hospital-grade disinfectant, ensuring no residue is left.
6. Empty rubbish bins, replace liners, and sanitise the bin interior and exterior.
7. Clean sinks and taps with a non-abrasive cleaner and sanitise thoroughly.

Equipment

- Colour-coded microfibre cloths
- HEPA-filter vacuum cleaner
- Cleaning trolley
- Hospital-grade disinfectants
- Mop and bucket with wringer
- Rubbish bin liners

Quality Criteria

Performance Level	Criteria
Excellent	All surfaces are visibly clean and sanitised with no dust or smudges. Floors are spotless with no residue. No odours present. High-touch areas are sanitised and free of fingerprints. Compliance with infection control protocols is fully documented.
Good	Surfaces are clean with minimal dust or smudges. Floors are clean with slight residue in corners. No strong odours. High-touch areas are mostly sanitised. Minor documentation gaps in infection control protocols.
Pass	Surfaces have some dust or smudges. Floors are clean but with noticeable residue. Mild odours present. High-touch areas are inconsistently sanitised. Documentation of infection control protocols is incomplete.
Fail	Surfaces are visibly dirty with dust and smudges. Floors are dirty with significant residue. Strong odours present. High-touch areas are not sanitised. Infection control protocols are not followed or documented.
