

Diesel Tank Area

Code: ANCMF-AU-I-DTA-01 • Facility: Industrial • Frequency: daily

Scope of Work

- Remove all visible debris and rubbish from the area.
- Clean and sanitise all surfaces, including floors, walls, and any exposed equipment.
- Ensure all drains and grates are free from blockages and clean.
- Use appropriate cleaning agents to remove diesel residues and prevent odours.
- Implement a colour-coded cleaning system to prevent cross-contamination.
- Ensure all cleaning activities comply with Australian workplace health and safety requirements.

Method

1. Inspect the area for any visible debris and remove it using appropriate tools.
2. Apply a degreasing agent to all surfaces and scrub thoroughly to remove diesel residues.
3. Rinse surfaces with water and ensure all cleaning agents are removed.
4. Sanitise surfaces using an appropriate sanitising solution.
5. Check drains and grates, removing any blockages and cleaning thoroughly.
6. Conduct a final inspection to ensure all areas meet cleanliness standards.

Equipment

- Industrial-grade degreaser
- Sanitising solution
- Colour-coded cleaning cloths and mops
- Heavy-duty scrubbing brushes
- Rubbish bins and liners
- Cleaning trolley
- Personal protective equipment (PPE)

Quality Criteria

Performance Level	Criteria
Excellent	No visible debris or stains; surfaces are spotless and free from odours; drains and grates are completely clear; all cleaning agents are fully rinsed off.
Good	Minor traces of debris or stains; surfaces are mostly clean with no strong odours; drains and grates are mostly clear; minimal cleaning agent residue.
Pass	Some visible debris or stains; surfaces are generally clean but may have slight odours; drains and grates are partially blocked; some cleaning agent residue remains.
Fail	Significant debris or stains; surfaces are dirty with strong odours; drains and grates are blocked; cleaning agents are not rinsed off.
