

Runway

Code: ANCMF-AU-TH-R-02 • Facility: Transportation Hub • Frequency: daily

Scope of Work

- Remove all debris and foreign objects from the runway surface.
- Conduct thorough sweeping and vacuuming of the runway to eliminate dust and dirt.
- Sanitise specific areas as required to prevent contamination.
- Inspect and clean runway markings to ensure visibility and compliance with safety standards.
- Ensure all rubbish bins are emptied and cleaned regularly.

Method

1. Conduct a visual inspection of the runway to identify areas requiring cleaning.
2. Use industrial-grade sweepers to remove debris and dust from the runway surface.
3. Utilise high-efficiency vacuum systems for thorough dust removal.
4. Apply appropriate sanitising agents to designated areas as needed.
5. Repaint or touch up runway markings if necessary to maintain visibility.

Equipment

- Industrial-grade runway sweepers
- High-efficiency vacuum systems
- Sanitising agents and applicators
- Colour-coded cleaning cloths and mops
- Rubbish bins and liners

Quality Criteria

Performance Level	Criteria
Excellent	Runway is free from all debris, dust, and foreign objects; markings are clearly visible and intact; no odours present.
Good	Minor dust or debris present; markings are mostly visible; no significant odours.
Pass	Noticeable dust or debris in some areas; markings are visible but may require touch-up; slight odours detectable.
Fail	Significant debris or dust present; markings are not visible; strong odours present.
