

Tarmac

Code: ANCMF-AU-TH-T-04 • Facility: Transportation Hub • Frequency: daily

Scope of Work

- Remove all debris and rubbish from the tarmac area.
- Pressure wash the tarmac surface to remove stains and spills.
- Sanitise high-touch areas such as handrails and benches.
- Inspect and clean all drains and gutters to prevent blockages.
- Ensure all rubbish bins are emptied and sanitised.
- Check and clean any signage for visibility and cleanliness.

Method

1. Conduct a preliminary inspection to identify areas requiring attention.
2. Use a high-pressure washer to clean the tarmac surface, focusing on stained or heavily soiled areas.
3. Apply a suitable sanitising solution to high-touch areas and allow to air dry.
4. Manually remove debris from drains and gutters, ensuring water flow is unobstructed.
5. Empty rubbish bins, replace liners, and sanitise the bin surfaces.
6. Wipe down signage with a damp cloth and mild detergent to ensure visibility.

Equipment

- High-pressure washer
- Colour-coded cleaning cloths
- Personal protective equipment (PPE)
- Sanitising solution
- Rubbish collection trolley
- Drain cleaning tools

Quality Criteria

Performance Level	Criteria
Excellent	No visible debris or stains; all high-touch areas sanitised; bins are clean and odour-free; signage is spotless and legible.
Good	Minor debris present; most high-touch areas sanitised; bins are mostly clean with minimal odour; signage is mostly clean and legible.
Pass	Some debris present; some high-touch areas sanitised; bins have some odour; signage is readable but not entirely clean.
Fail	Significant debris or stains present; high-touch areas not sanitised; bins are dirty and odorous; signage is dirty and illegible.
