

Taxiway

Code: ANCMF-AU-TH-T-05 • Facility: Transportation Hub • Frequency: daily

Scope of Work

- Remove all debris and foreign objects from the taxiway surface.
- Sanitise all taxiway markings to ensure visibility and safety.
- Conduct a thorough inspection for any spills or stains and clean accordingly.
- Ensure all drainage systems are free from blockages and clean.
- Maintain cleanliness around lighting fixtures and signage.
- Regularly check and clean any adjacent areas such as taxiway shoulders.

Method

1. Conduct a visual inspection of the taxiway to identify areas requiring cleaning.
2. Use a colour-coded cleaning system to organise tasks and prevent cross-contamination.
3. Utilise a trolley equipped with necessary cleaning supplies to efficiently manage the cleaning process.
4. Remove debris using appropriate tools and dispose of in designated rubbish bins.
5. Sanitise markings and surfaces using approved cleaning agents.
6. Inspect and clean drainage systems to ensure proper function.
7. Document all cleaning activities and report any issues to the supervisor.

Equipment

- Industrial-grade broom and dustpan
- High-pressure washer
- Colour-coded cleaning cloths and mops
- Approved sanitising agents
- Rubbish bins and liners
- Inspection checklist

Quality Criteria

Performance Level	Criteria
Excellent	Taxiway is free from all debris, stains, and spills; markings are clearly visible and sanitised; drainage systems are clean and unblocked; adjacent areas are spotless.
Good	Minor debris present but does not affect safety; markings are visible; minor blockages in drainage systems; adjacent areas are mostly clean.
Pass	Some debris present; markings are visible but not fully sanitised; drainage systems have minor blockages; adjacent areas require attention.
Fail	Significant debris present; markings are obscured; drainage systems are blocked; adjacent areas are dirty.
